The LagoLED® Presentation Desks combine the latest developments in the area of LED technology and innovative features of existing products.

The LagoLED® Presentation Desks provide unique new possibilities for presentations and seminars through their integrated LagoLED DEKO Panels, which can be clear, engraved with a company logo, a Dot matrix print or a Stoch print. The LagoLED® Presentation Desks are available in 4 different designs to meet the requirements and needs of every company or project.

The Arc, Box, Origin and Space can all be controlled by DMX or hand-held remote to fit your needs. These versions are available on request. The standard versions come with a PSU and a default RGB colour fade. All versions can be manufactured with desk lighting, microphone connection and other accessories.

### LagoLED® Space

The LagoLED® Space is the most eccentric and futuristic design and the only model with two LagoLED® DEKO Panels incorporated into its unique design. You can engrave your company logo into these panels or into the stainless steel front; everything is possible with this model. The LagoLED® Space is produced with the best possible quality products, with its frame from stainless steel, LagoLED® DMX-i Strips and LagoLED® DEKO Panels.

All LagoLED® Presentation Desks are shipped in sturdy packaging and are equipped with an IR receiver and DMX input.

### LagoLED® Box

This desk is appreciated globally for its simplicity and minimalistic, straight-lined design. The displayed model incorporates an engraved DEKO Panel, but can also be equipped with a Dot matrix or Stoch matrix. The integrated DMX-i panels make sure that the emphasis lies on what's being presented and give you the opportunity to highlight your company name or logo.

All LagoLED® Presentation Desks are shipped in sturdy packaging and are equipped with an IR receiver and DMX input.
