

# Flex SC

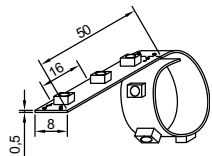

Since its introduction, the DecaLED® Flex system has been frequently praised for its simple and quick installation procedure and excellent light output, all for an extremely competitive price.

Thanks to its powerful light output, the DecaLED® Flex SC is suited for installations that require a high light intensity. Besides the powerful light output the DecaLED® Flex SC are highly flexible LED lines with a length of 5 metres. These combined features make the DecaLED Flex SC an ideal solution for LED lighting in corners, curves or bent structures that require LED lighting. The back face of the strip features 3M Scotch™ tape, making installation quick and easy.

The DecaLED® Flex is available in 7 different colours: purple, red, green, blue, cold white, amber and warm white. All versions are available from stock, and we offer various control options. Please see the indicators for the correct drivers, controllers and accessories.

We offer the Demo set Flex as an introduction demo set containing 60cm of DecaLED® Flex of every colour, a manual controller, PSU and accessories. For more information concerning the demo set, please refer to the Demo set section.

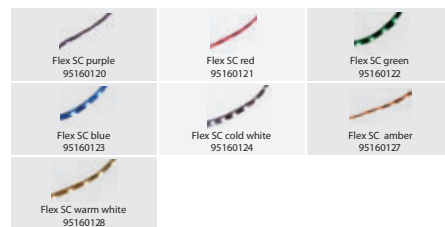

DecaLED® Flex SC Product Specification							
Code	95160120	95160121	95160122	95160123	95160124	95160127	95160128
Description	DecaLED® Flex, Purple, 5m, 60 LEDs p/m	DecaLED® Flex, Red, 5m, 60 LEDs p/m	DecaLED® Flex, Green, 5m, 60 LEDs p/m	DecaLED® Flex, Blue, 5m, 60 LEDs p/m	DecaLED® Flex, Cool white, 5m, 60 LEDs p/m	DecaLED® Flex, Amber, 5m, 60 LEDs p/m	DecaLED® Flex, Warm white, 5m, 60 LEDs p/m
Type	DECA.FLEX.P	DECA.FLEX.R	DECA.FLEX.G	DECA.FLEX.B	DECA.FLEX.W	DECA.FLEX.O	DECA.FLEX.WW
Operating voltage	12VDC						
Current	1.2A per 5m						
Power consumption	14.4W per 5m						
Control	DecaLED® Controller 2 / Controller 2 Mini						
Max. per controller	8/2						
Max. per output	1/1						
Max. per IP PSU 12V 30W	2						
Max. per IP PSU 12V 60W	4						
Max. per IP PSU 12V 150W	9						
Max. per PSU 12V 80W	5						
Max. per PSU 12V 200W	12						
LED properties	SMD single colour LED						
Dimensions	5000 x 8 x 2 mm						
Weight	10 g
