

RGB Module

DecaLED® RGB Modules are based on our popular high-quality LagoLED® RGB Strips. The DecaLED® RGB Module is a small RGB Strip with an excellent light output, ideal for countless applications such as backlit panels and decorative lighting.

The DecaLED® RGB Module is 10 centimetres in length and can be linked up to 50 pieces in one line. DecaLED® RGB Modules are supplied with a mounting clip and link cable. Dependent on the setup of the DecaLED® Driver, the DecaLED® RGB Modules will either run a fixed program to your liking or respond to DMX.

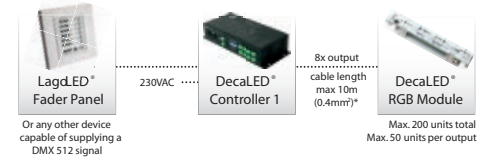

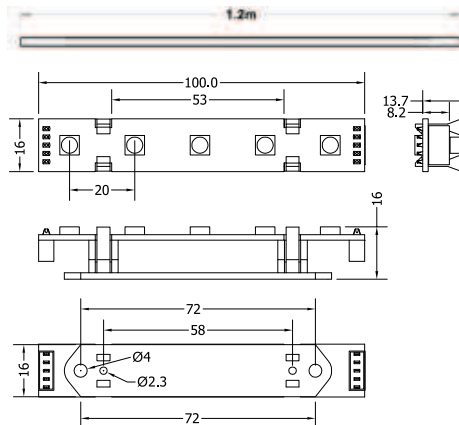

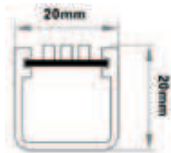

Power supplies and accessories are available to make your project or product a success. Customers that have used the DecaLED® RGB Modules vary from TV productions to amusement parks and nightclub applications. The DecaLED® RGB Module is the perfect choice for big performances with small budgets.

Please note that this product is available from stock in the RGB version and that we offer various control options. Please see the indicators for the correct drivers, controllers and accessories. The DecaLED® RGB Module is supplied with mounting clip and 10cm starter cable.

DecaLED® RGB Module Product Specification	
Code	95150249
Description	DecaLED® RGB Module
Type	DECA.10.RGB
Operating voltage	24VDC
Current	60mA
Power consumption	1.5W
Control	DecaLED® Controller 1
Total per controller	200
Total per output	50
Connection	terminal
LED properties	5 RGB SMD three-in-one chip per module
Dimensions	100 x 16 x 19.5 mm
Weight	11 g

Accessories
