In combination with the Color bar 18 RGB, we provide several standard single colour versions for architectural designs. Available in various configurations with or without optics, a wide variety of applications is possible. We can supply a white, warm white, and smartwhite version from stock.

With a complete line of white color bars, we provide the tools architects need to illuminate their structural design. The Cool white and Warm White speak for themselves. The Smartwhite provides a combination between warm and cool white LEDs. With 12 Warm white and 6 cool white 1 watt Luxeon emitters. Making gradual white colour temperature changes possible to achieve the best possible effect.

The DecaLED® Color Bar 18 can be used stand-alone or controlled remotely using the DMX protocol via the DecaLED® High Power DMX ControllerTV. Also supplied are mounting brackets which allow for easy installation at an angle of up to 180°.
