Kalla is inspired by the comfortable welcoming design of the traditional lounge armchair, with a little added twist of irony. Designer Gianni Arnaudo moves outside the confines of the home to offer added value to gardens and patios.

While practical and light, it is also equally comfortable and elegant, partly thanks to the large cushions on the seat.

Kalla is the perfect blend of form and functionality. It is also an unexpected source of light with a luminous base which confers an ethereal look, making it the centrepiece of its location.
